WEEK 1: ASSIGNMENT 1

1. Which of the following best characterizes the "Circumscribing" stage of Knapp's model?

a) Partners pursue legal separation and divide shared responsibilities
b) **Communication decreases in quantity and quality with shrinking interest and commitment**
c) Partners create intentional physical distance and stop meeting entirely
d) Partners make a public announcement about ending their relationship

2. According to Lee's (1984) stage model of relationship dissolution, which stage involves both partners actively trying to find ways of solving the problems?

a) Exposure
b) Dissatisfaction
c) Negotiation
d) **Resolution Attempts**

3. Which of the following correctly describes "High-wanted control" in the FIRO-B framework?

a) **The individual reflects a disposition to accept control and direction from others**
b) The individual actively avoids situations that require decision-making
c) The individual resists any form of external influence on their decisions
d) The individual prefers to take charge and organize others around them

4. During the "Integrating" stage of Knapp's model, which change is most characteristic of the partners?

a) They begin creating independent social identities and separate friendships
b) They make a formal legal commitment to the relationship
c) They start expressing dissatisfaction and withdraw emotionally
d) **They develop a shared relational identity and begin taking on each other's commitments**

5. In the FIRO-B model, the need area that indicates how much influence and responsibility you want, and how much you want others to lead and influence you, is called _____.

a) Affection
b) Inclusion
c) **Control**
d) Orientation

6. Familiarity always leads to stronger and more positive relationships, with no possibility of breeding contempt.

a) **True**
b) False

7. In which stage of Knapp's model do partners begin using "Me" instead of "We," Signaling first feelings of stress?

a) Stagnating
b) Avoiding
c) Terminating
d) **Differentiating**

8. In the Twelve Interpersonal Styles framework, what is the functional (OK) style corresponding to the "Reactive Child" ego state?

a) **Assertive**
b) Innovative
c) Normative
d) Resilient

9. In Knapp's model, the stage where the relationship is described as a "hollow shell" with no growth and outsiders noticing something is wrong is called _____.

a) Circumscribing
b) Differentiating
c) Avoiding
d) **Stagnating**

10. FIRO-B measures how a person feels in interpersonal situations rather than how a person behaves in interpersonal situations.

a) True
b) **False**

Answers:

1. b)
2. d)
3. a)
4. d)
5. c)
6. a)
7. d)
8. a)
9. d)
10. b)
